

PET HALITOSIS

**Bad breath is not
normal ... it's a
sign of disease!**

PET HEALTH AWARENESS BOOKMARK

The #1 PET HEALTH PROBLEM diagnosed at WAUNAKEE VETERINARY CLINIC is oral disease. We continue to promote awareness of the importance of preventative dental care in maintaining your pets' overall health. Dental disease is **PAINFUL** to your pet. Regular exams and cleaning are important to keep your pet happy, and healthy!

The bacteria in dental disease can spread throughout the body weakening the liver, kidneys and heart.

Proper dental care can increase your pet's life expectancy!
