

Why the HydroSurge® Bathing System

Our **HydroSurge® Massage Bathing System** will deep clean the skin and coat better than hand washing. This technology is a forced water animal bathing system that drives the shampoo through heavy, thick coats and down to the skin. This is especially helpful for pets with dermatological conditions where a medicated shampoo is required. The HydroSurge® system it is the perfect choice for pets with dry, flaking, itching and irritated skin. We have also found that pets love the massaging action and bathers love the stress-free bath.

Why Your Pet Should Be Professionally Groomed

The fitness of your pet's skin is important in maintaining a happy, healthy pet. Skin disorders are one of the most common medical conditions seen by veterinarians.

Your pet's skin secretes a waxy oil that acts like a magnet for dirt, and the combination of dirt and oil encourages the growth of bacteria on the skin. These three factors frequently cause offensive pet odor. In addition, the dirt, grime and oils on your pet's fur can rub off onto carpets and furniture, leaving an unpleasant odor. No one likes a smelly pet or a smelly house, so the condition of your pet's skin affects your environment, as well as your pet's health and happiness.

Why Professional Grooming at Animal Medical Hospital

Our professional groomers are known for their loving care, 20+ years of professional experience and take pride in the personal attention that they give your pet from start to finish. At **Animal Medical Hospital**, we can provide individualized grooming services to meet your pet's needs.

Grooming quotes and estimates are given based on:

- Breed
- Temperament
- Length and condition of coat
- Type of haircut

How We Groom & Bathe Your Pet

- ✓ Your pet will be thoroughly checked to determine any skin problems or conditions that may go undetected by the owner.
- ✓ Your pet receives a luxurious bath that therapeutically cleans the skin removing any particles, dander or debris that may gather. Plus your pet receives a relaxing shampoo massage that is sure to pamper them.
- ✓ Pets having a groom will receive a professional haircut according to breed standard or owner's preference.
- ✓ We only use the highest quality shampoos and conditioners to achieve a fluffy, clean and healthy coat!
- ✓ Capstar, which kills fleas and flea eggs within 30 minutes, is given to each pet that is bathed and groomed.
- ✓ Bandanas and colognes are used as the finishing touch to your pet's professional grooming style.
- ✓ Veterinary services can also be scheduled during your pet's visit.
- ✓ **Baths scheduled during your pet's boarding visit will receive a 10% bath discount.**
