

Animal Medical Wellness Care plans are NOT insurance.

*They're better –
a new and affordable
way to care for your pet.*

Today, most aspects of veterinary medicine are geared toward preventive care. We believe proactive preventive care not only will improve the quality of your pet's life but will add years to it.

Our **Wellness Care Plans** provide disease prevention and early diagnosis. **Each plan is unique and affordable. The cost of preventive care is conveniently spread over 12 months.** These plans are **NOT** intended to treat unforeseen accidents, injury or illness, which would be covered as an out-of-pocket expense or through your pet health insurance plan.

Your **Wellness Care Plan** is a special relationship between you and your veterinarian to help take the financial worry out of caring for your pet.

ENROLL TODAY, and you'll know that you're helping your dog live a longer, healthier and happier life with an established pet health wellness program. **Ask one of our team members for additional details.**

7X
SEVEN TIMES

Most of us don't need a medical checkup more than once a year, but dogs are different.

Dogs, on average, age up to seven times faster than humans, and by age two, most have already reached adulthood. At age four, many pets are entering middle age. By age seven, dogs are considered seniors, and at age ten they enter the geriatric stage of their lives.

The bottom line! Taking your dog to the veterinarian once a year is the same as seeing your doctor just once every seven years! You would not wait seven years to see your doctor or dentist for a checkup. Some dogs are notorious for hiding signs of illness until they are almost at a crisis stage. **Wellness care is a critical part of your pet's health.**

Your best friend can't say "ouch"!

Many times pets are sicker internally than they let us know. A routine wellness exam can identify or prevent medical conditions early before they become major problems.

Conditions such as dental disease, diabetes, arthritis, allergies and heart disease can be diagnosed early, and many cancers, especially breast cancer, can also be detected.

Fleas & Internal Parasites

Fleas can cause a range of problems, including skin redness, excessive scratching, anemia in dogs, allergic reactions to the flea saliva or contraction of diseases carried by fleas.

We recommend a **ONCE-MONTHLY** flea and parasite preventative for your pet beginning as early as 8 weeks old. **Remember, for every flea you see on your pet, there are hundreds more in your environment.**

ZOONOSIS refers to a parasite or disease, like rabies, that can be passed from animals to humans. Members of your family can unknowingly pick up **ZOONOTIC PARASITES** at the park, on a sidewalk or even in their own backyard. Children are especially vulnerable to zoonotic parasites, mostly because children play outside and sometimes have a tendency to put objects in their mouths.

Start your puppy off right!

The health requirements of a puppy are significant. Establish an early habit of preventive care for your puppy.

Puppy Basic Plan

\$37 per month

Includes:

- **Comprehensive physical exam (4x)**
This in-depth evaluation assesses your puppy's overall health and establishes important baseline information.
- **All vaccinations**
Protects against a wide variety of diseases and infections, based on your pet's environment and health risk assessments.
- **Pet I.D. Microchip**
- **Diagnostic testing**
This would include heartworm test, Lyme test, and ear swab.
- **Fecal exams and deworming (2X)**
Detects and treats intestinal (rounds & hooks) parasites that can cause disease.
- **Office call/exams (2x)**
Don't delay when you have a concern.
- **Recheck exam (2x)**

SAVE \$238 per year

Puppy Complete Plan

\$49 per month

Includes All Puppy Basic Plan Services:

- **Comprehensive physical exams (4x)**
- **All vaccinations**
- **Diagnostic testing**
- **Fecal exams and deworming (rounds and hooks 2x)**
- **Office calls/exams (2x)**
- **Recheck exam (2x)**
- **Pet I.D. Microchip**

AND:

- **Spay or neuter surgery** including preanesthetic blood testing, and internal organ screens

SAVE \$325 per year

Dog Basic Plan

\$38 per month

Every dog needs a plan that covers basic requirements for preventative care. This plan establishes a baseline of wellness information to help keep your dog healthy.

Includes:

- **Comprehensive physical exam (2X)**
This twice-a-year in-depth evaluation assesses your dog's overall health and updates important baseline information.
- **All vaccinations your dogs needs**
Continued protection against a wide variety of diseases and infections, based on your pet's environment and health risk assessments.
- **Fecal exams (1x) and deworming (2X)**
Detects and treats intestinal (rounds & hooks) parasites that can cause disease.
- **Office calls/exams (4x)**
No need to delay when you have a concern about your dog's health.
- **Recheck exams (4x)**
- **Diagnostic testing**
This would include blood work, internal organ screen, heartworm test, and ear swab. The blood test results will provide us with a reference point or a baseline of normal values. It is important that this individual baseline of your pet's health be established before its senior years as it can be used in the future to detect changes in bodily functions that could signal a health problem.

SAVE \$243 per year

Dog Complete Plan

\$49 per month

Today, due in large part to better nutrition, new pharmaceuticals, dental and preventive veterinary care, pets are more active and living longer than they did just a couple of decades ago.

By age three, more than 80 percent of dogs show signs of gum disease, which, if left untreated, can lead to **serious illness** and put additional demands on your dog's heart, liver and kidneys. Give your dog the **Primary Plus Plan** to help keep your dog healthy and happy.

Includes All Dog Basic Care Plan Services:

- **Comprehensive physical exam (2X)**
- **All vaccinations your dog needs**
- **Fecal exams (1x) & deworming (rounds and hooks 2X)**
- **Office calls/exams (4x)**
- **Recheck exams (4x)**
- **Diagnostic testing**
This would include blood work, internal organ screen, heartworm test, and ear swab. The blood test results will provide us with a reference point or a baseline of normal values. It is important that this

individual baseline of your pet's health be established before its senior years as it can be used in the future to detect changes in bodily functions that could signal a health problem.

AND:

- **Dental cleaning**
Prevents serious infection, tooth loss, pain, and potential for heart and kidney disease.

SAVE \$321 per year

Dog Senior Plan

\$61 per month

Although middle age to senior pets may not have the energy of youth, they still have plenty of love and companionship to offer. Often our senior pets require **proactive management** of chronic disease. Our Premier Plan is specifically designed for this loving group of friends.

Includes All Dog Complete Plus Services:

- **Comprehensive physical exam (2X)**
- **All vaccinations your dog needs**
- **Diagnostic blood work**
- **Fecal exams (1x) and deworming (rounds and hooks 2X)**
- **Office calls/exams (4x)**
- **Recheck exams (4x)**
- **Dental cleaning**

AND:

- **Chest X-rays (2 views)**
Evaluates the tissues, organs and bones.
- **Thyroid screening**
- **Urine testing**
