PEOPLE ARE ALWAYS MOVING...

Every year approximately forty million Americans move their place of residence and/or business, but their old addresses often remain in mailer's databases. As a result, mailings continue to go to old addresses and not the new ones. It is estimated that at least 8% of all mail is undeliverable because of incorrect addresses. This means lost opportunities, lost sales, and wasted money.

We processed your mailing listed through the NCOA^{Link™}.

The NCOA^{Link™} System makes available current change of address information that can help reduce your undeliverable mail. Addressing errors are identified and corrected before mail enters the mailstream. Mailers use NCOA^{Link™} to save thousands of dollars that would have been spent on wasted materials and postage. In addition, valuable customer names that would have been lost have been updated to receive current and future mailings.
