WE ACCEPT NEW PATIENTS!

WE CARE ABOUT YOUR BEST FRIEND!

We understand the limits of a family budget.

PLEASE DO NOT put off your pet's veterinary care as this frequently leads to more serious and expensive pet health care problems. We want to work with you to take care of your pet's **IMPORTANT REGULAR EXAMS** and most pressing pet health needs. *We hope you will take advantage of our Pet Care Savings Card and let us help keep your pet happy and healthy!*

We've Got "Cat-itude"

Cats are not small dogs, not even close. Cats need a canned food and high protein diet as they age. Older cats need less vaccines and more dental care.

Please Follow Us!

ABQ Petcare Hospital maintains an active presence on many popular social media websites. Please follow us.

Our Professional Services

- General Medicine
- Avian & Exotics
- Vaccinations
- Digital Radiology
- Internal Medicine

- Pet I.D. Microchipping
- General Surgery
- Prescription Diets
- Behavioral Counseling
- Emergency Care
- In-House Laboratory
- Nail Trimming

Microchip Implants –

Don't lose your pet! This "high-tech" mechanism is a tiny computer chip that is programmed with an identification number that can be scanned by veterinarians and animal shelters. The chip is small enough to fit into a hypodermic needle, which is used to inject the microchip under the skin of your pet.

Old Friends are Best Friends

Your Pet's Senior Years

7X
SEVEN TIMES

Where does the time go?

Most of us don't need a medical checkup more than once a year, but dogs and cats are different. Pets, on average, age up to **SEVEN TIMES** faster than humans, and by age two, most have already reached adulthood. At age four, many pets are entering middle age. By age seven, dogs and cats are considered seniors, and at age ten, they enter the geriatric stage of their lives.

As you always have, you can continue to show your love and devotion by ensuring age-related health care. In honor of National Senior Pet Health Month, we are offering a special diagnostic checkup for our grand patients.

Your Pet's Senior Exam Is Different

This is not your regular pet health exam. A senior health screening exam involves state-of-the-art laboratory analysis of your pet's internal functions. These tests help diagnose blood disorders, kidney and liver disease, diabetes, infections, thyroid abnormalities, and other potential illnesses that can become life threatening. Radiographs can help diagnose heart disease, cancer, and osteoarthritis. *An ounce of prevention is worth a pound of cure!* Help your "best friend" live a longer, healthier and happier life.

How Old Is Your 7-Year-Old?
(equivalent age in human years based on your pet's weight)

| Pet's Age In Years | Dogs (by weight) | | | | |
|--------------------|------------------|-----------|------------|------------|-----------|
| | Cats | 0-20 lbs. | 21-50 lbs. | 51-90 lbs. | > 90 lbs. |
| 1 | 24 | 15 | 15 | 14 | 12 |
| 2 | 28 | 24 | 24 | 22 | 20 |
| 3 | 32 | 28 | 29 | 29 | 28 |
| 4 | 34 | 32 | 34 | 34 | 35 |
| 5 | 36 | 36 | 37 | 40 | 42 |
| 6 | 40 | 40 | 42 | 45 | 49 |
| 7 | 44 | 44 | 47 | 50 | 56 |
| 8 | 48 | 48 | 51 | 55 | 64 |
| 9 | 52 | 52 | 56 | 61 | 71 |
| 10 | 56 | 56 | 60 | 66 | 78 |
| 11 | 60 | 60 | 65 | 72 | 86 |
| 12 | 64 | 64 | 69 | 77 | 93 |
| 13 | 68 | 68 | 74 | 82 | 101 |
| 14 | 72 | 72 | 78 | 88 | 108 |
| 15 | 76 | 76 | 83 | 93 | 115 |

Legend: ADULT (grey), SENIOR (yellow), GERIATRIC (pink)

IMPORTANT SENIOR NOTE: Data from senior health screening exams show that more than 22% of senior dogs and 17% of cats that appear healthy have been found to have significant subclinical disease.
